EXPERIENCE

Associate Software Engineer — Bajaj Finserv Health Jul 2025 – Present

- Built and scaled **ObservRx** from a proof-of-concept into an internal observability platform used by **14+ teams**, implementing **MCP-driven RCA workflows** to generate structured insights and raise actionable tickets.
- Implemented **Elasticsearch fuzzy search and vectorized** ambiguity resolution in **PharmaAI** module, improving conversational accuracy and reducing query latency from **8+ seconds to ∼4 seconds**
- Designed and developed the **Bot Journey Builder**, establishing validation gates, draft vs live diffing, audit trails, and RBAC, reducing configuration-related production errors by **95%**..
- Built and launched the **Serum WhatsApp Bot** from scratch to production, owning end-to-end journey design, validations, and backend integrations for live healthcare workflows. (**Limelight Award 2025**)

Software Engineer Intern — Bajaj Finserv Health Oct 2024 – Jun 2025

- Implemented **gateway-level caching** for listing and master-data services, reducing API traffic by up to **60%** while maintaining low latency and correctness.
- Led database hygiene and data integrity initiatives by removing **32 obsolete tables** across environments, fixing schema inconsistencies, indexing critical fields, and resolving data issues causing 5xx errors.

Full Stack Developer Intern — TechHive Technology Aug 2023 – Aug 2024

- Built an admin dashboard for a cab aggregation platform supporting **800+ drivers** and **1000+ monthly customers** across two applications.
- Developed and integrated an admissions module into a college ERP system, handling **1,200+ applications annually** and improving conversion through streamlined workflows.

SKILLS

Languages	JavaScript, C++, Python, Java
Frameworks	React/Next.js, Tailwind/CSS, Nest.js, Spring Boot
Cloud & DevOps	GCP, Kubernetes, Terraform, Kafka, ETL, IAM, Networking
Databases	PostgreSQL, MySQL, Elasticsearch, BigQuery

CERTIFICATIONS

Google Cloud Certified — Associate Cloud Engineer Jan 2026 - Jan 2029
NPTEL — Cloud Computing May 2024

EDUCATION

SRM University, Tiruchirapalli Jun 2021 – May 2025
Bachelor of Technology in Computer Science and Engineering CGPA - 9.11 / 10

ACHIEVEMENTS

International Hackathon Runner-up — Hack Summit 4.0 (36-hour international hackathon) Sep 2023
Secured 2nd place, outperforming **56 teams**.

Codeathon Winner — Campus Connect Corporate Dec 2022
Ranked 1st among **120 participants** in a DSA-focused coding contest.
